- Actively participated in Corporate social responsibility(CSR) held at BNYM Technology – classroom teaching and other events for orphanage students

PROFESSIONAL EXPERIENCE

I have worked on numerous number of project/ Adhoc /on the go task with enthusiasm of learning, some of crucial projects are as follows.

Project Details	
Project	CATS- Millisecond Project (online and batch)
Technologies/Tools	CICS,COBOL,JCL,DB2, INSYNC,APPTUNE, BMC DB2,Trace Master
Description	Extending timestamp in whole system, to get precise timings in process
Role and Responsibility	<ul style="list-style-type: none"> – Understand all phases of Project Life Cycle - Design, Development, Testing, and Deployment – Communicate with PM and PL for requirement gathering – Coding online program using COBOL, JCL, DB2 and CICS – Coding batch program using COBOL, JCL and DB2 – Unit testing of coding using Trace Master Daily status call with managers and leads

Project	Display size indicator on ATOMS screens - CICS
Technologies/Tools	BTB,CICS,COBOL,,DB2,Tace Master
Description	Addition Display size fields in ATOMS existing screens.
Role and Responsibility	<ul style="list-style-type: none"> – Understand all phases of Project Life Cycle - Design, Development, Testing, and Deployment – Communicate with PM and PL for requirement gathering – Coding online program using CICS COBOL, JCL, DB2 and CICS – Unit testing of coding using Trace Master Daily status call with managers and leads

Project	Migration/Maintenance of JAVA process which on top of WebSphere
Technologies/Tools	JAVA, GIT, JENKINS
Description	Creating Mainframe's Execution Process in JAVA environment and maintain it.
Role and Responsibility	<ul style="list-style-type: none"> - Understanding the end to end workflow of project, Requirement Analysis and design. - Client interaction to update the status and to clarify the queries, Weekly Demo presentation of the completed module of application. -

Project	Worked on NetX360 application.
Technologies/Tools	Angular 6, DB2 database
Description	Netx360 is web Application which helps user to put equities options OTCs
Role and Responsibility	<ul style="list-style-type: none"> - Made changes in UI as and when requested by clients/user. -Team Coordination, Design and Development of the application, Self and peer code reviews, Technical documentation
